

INDUSTRIAL DUTY

Stainless Steel Straight Centrifugal Pumps

- **304 Stainless Steel Construction**
- **Viton® Mechanical Seal and O-Ring**
- **Investment Cast Stainless Steel Impeller**
- **High Head and High Volume Models**
- **Max. Working Pressure 150 PSI**
- **Max. Temperature 200° F**
- **Max. Flow 156 GPM**
- **Max. Head 145 ft.**
- **Chemical Resistant Design**
- **Discharge Port Rotates in 90° Increments**
- **Available with Open Drip Proof (ODP) or Totally Enclosed Fan Cooled (TEFC) Motors**
- **3/4 HP to 3 HP Single and Three (3) Phase 3450 RPM Motors**

High Volume Pump

High Head Pump

The AMT line of Stainless Steel Straight Centrifugal pumps is designed for continuous duty high flow and high pressure applications including chemical processing, liquid transfer, cooling, pressure boosting, circulating and applications requiring contaminant free pumping. Constructed of rugged deep drawn 304 Stainless Steel for durability and corrosion resistance. Investment Cast Stainless Steel closed impellers for enhanced performance and high efficiencies. All models include Viton® Type 21 mechanical seals and O-rings which offer a broad range of chemical compatibility. Cast Iron motor adapter provides a positive and rigid mounting to motor. All models are available with TEFC or ODP electric motors in Single or Three phase voltage.

AMT Stainless Steel Straight Centrifugal pumps are reliable, cost effective and low maintenance. Many are readily available "Off-the-Shelf" for fast 24 hour shipment. For use with non-flammable liquids which are compatible with pump component materials.

Performance Stainless Steel Straight Centrifugal Pumps

(*) Standard NPT (female) pipe thread.

(**) This dimension may vary due to motor manufacturer's specifications.

(+) 3-Phase motors can also operate on 50 Hz. (This will change Full Load Amps, Service Factor and RPM)

NOTE: Dimensions have a tolerance of $\pm 1/8$ ".

NOTE: Electric supply for ALL motors must be within $\pm 10\%$ of nameplate voltage rating (Ex. 230V $\pm 10\%$ = 207 to 253)

Standard Features

- 304 Stainless Steel Construction
- Investment Cast Stainless Steel Impeller
- Viton® Mechanical Seal and O-Ring (Buna-seal and O-ring optional)
- Cast Iron Motor Adapter Provides Rigid Mounting
- AeroSpace Fusion Welding
- Stainless Steel Hardware
- NEMA 56J ODP & TEFC Single & Three Phase Motors
- 3/4 to 3 HP Models Available
- NEMA Base Mounted Motors
- Stainless Steel Motor Shaft
- Max. Working Pressure up to 150 PSI
- Max. Temperature 200° F
- "Off-the-Shelf" Availability for Many Models
